

European-Canadian cooperation in the Arctic: the future

Monday December 8th, 13h

Ottawa Convention Center, room 201

This side meeting will review projected arctic research initiatives and identify Canadian-European collaboration opportunities that could be funded through Canadian (e.g. Canada First Excellence Research Fund) and European (e.g. H2020) programs. Representatives from Canada and several European countries will provide short descriptions of key initiatives to fuel a general discussion of potential collaborations.

Agenda

Opening: Louis Fortier - Potential sources of funding (10 min)

Presentations (3 min + 2 min questions):

Philippe Archambault; Dieter Piepenburg; Lis Jorgensen; Martin Blicher - PANABIO

Marcel Babin - Green Edge

Dave Barber - BaySys and Churchill Marine Observatory (CMO)

Robbie Bennett - Arctic geohazard research; Geological Survey of Canada

Jorgen Berge - Norwegian projects

Nicole Biebow - EU-PolarNet

Finlo Cottier - Scottish projects

Cynan Ellis-Evans - Svalbard Integrated Earth Observing System (SIOS)

Louis Fortier - A pan-Canadian Arctic Institute

David Hik - Tundra and science-policy + IASC sponsored programs

Phil Hwang - UK-Korea-US collaborative programs

Margareta Johansson – INTERACT

Break (20 min)
